

Wear your Mask Correctly

1. Wash your hands before handling your clean mask.
2. Pull it up over your nose and mouth, all the way to just beneath your eyes. Do not let it slide down.
3. Tuck the loops behind your ears, or else tie the straps behind your head.
4. Pull the bottom portion of the mask down under your chin.
5. Try to fit it snugly against the sides of your face.
6. Make sure you can breathe easily without pulling it off.
